

CHC WH QUESTIONS

30-Day Social Media Trend & Content Plan

Audience: 18–30 | Format: Instagram Reels / Shorts / Posts | Brand: CHC Tech Hub

A practical, gender-neutral content system built around WHY, WHAT, WHEN, WHERE, WHO and HOW. The objective is to create a recognizable CHC series that encourages comments, shares, saves and user participation.

1. Campaign Concept

Series name: CHC WH Questions

Signature line: “No right answer. Just your answer.”

Core idea: Ask one strong question that reflects something young adults genuinely think about—career, money, confidence, friendship, technology, failure, growth and the future.

Recommended content formula

Step	Purpose	Example
1. Hook	Stop the scroll in 1–2 seconds	WHAT DOES SUCCESS MEAN TO YOU?
2. Choices / tension	Make the viewer think	Money? Career? Freedom? Peace?
3. Insight	Give one short thought	Success doesn't have one definition.
4. CTA	Trigger participation	What's yours? Comment below.
5. Branding	Make the series recognizable	CHC WH QUESTIONS

2. Content & Visual Strategy

Primary format: 12–25 second vertical videos (9:16). Use large on-screen text so the question can be understood without sound.

Visual style: Clean, modern, fast cuts, real people, workplace/lifestyle B-roll, screen text and occasional direct-to-camera delivery.

Voice: Conversational, intelligent and relatable—not overly motivational, preachy or corporate.

Gender neutrality: Avoid questions or visuals that assume a particular gender, relationship status or life path.

CTA rotation: Comment / Tag a friend / Share / Save / Story poll / “Finish this sentence” / “Choose one”.

Suggested posting rhythm

Post one core piece per day for 30 days. If production capacity is limited, publish the 5 strongest Reels each week and use the remaining questions as Stories, carousels or community posts.

Final 2 days	Learning & action	Turn engagement into participation	"START"

4. Reusable Reel Template

0-2 sec: Big WH question.

15-20 sec: Comment/share/tag CTA.

Question: [WH question]

[One or two sentences that add context.]

Your turn: [CTA]

#CHCWHQuestions #CHCTechHub #YoungProfessionals #CareerGrowth #SelfGrowth #LifeQuestions

6. Hashtag Strategy

Branded: #CHCWHQuestions #CHCTechHub

Audience: #YoungProfessionals #GenZ #Millennials #WorkingProfessionals

Topic: #CareerGrowth #PersonalGrowth #Learning #Success #Mindset #LifeLessons

Rule: Use a small, relevant set rather than filling every post with unrelated hashtags.

7. Engagement Playbook

- Reply to early comments quickly and ask a follow-up question.
- Pin one thoughtful answer rather than only the highest-like comment.
- Turn strong comments into the next Reel: "You said X. Here's another question..."
- Use Stories to repost interesting answers and run polls.
- Never shame an opinion; the strength of the trend is that there is no single correct answer.

8. KPI Tracking

Metric	What it tells CHC	Watch for
3-second views / hook retention	Whether the WH question stops scrolling	Weak first-frame wording
Average watch time	Whether the idea holds attention	Drop-off after hook
Comments	Conversation strength	Questions with clear personal answers
Shares	Relatability / emotional value	Advice and "send this to..." content

Metric	What it tells CHC	Watch for
Saves	Long-term usefulness	Skills, habits, career content
Profile visits	Brand curiosity	Strong series identity
Follows	Series conversion	Consistent branding + repeatable format

9. Final Campaign Principle

The trend should feel like a conversation, not an advertisement. CHC's role is to ask questions that young adults actually want to answer. Once the audience starts replying, their answers become the next content source. That creates a repeatable loop: Question → Comment → Community insight → Next question.

Recommended signature: “CHC WH QUESTIONS — No right answer. Just your answer.”
